PROFILE

Full Stack Software Engineer with 4 years of hands-on experience (since 2022) building custom websites, data-intensive applications, SaaS platforms and ERP software. Specialized in Laravel, Vue, Nuxt, TypeScript and Docker, with end-to-end responsibility across architecture, APIs, databases, deployment and production support.

TECHNICAL SKILLS

Core: PHP, JavaScript, TypeScript, SQL, Python (project experience)

Frontend: Vue 3, Nuxt 4, Pinia, Tailwind CSS, HTML, CSS

Backend & Data: Laravel 12, Django (project experience), REST APIs, MySQL, MariaDB, Redis, multi-tenancy

Delivery & Quality: Docker, Linux, Nginx, Plesk, GitHub Actions, CI/CD, Playwright, Pest, Vitest

Platforms: WordPress, Elementor, Divi, Mercado Pago, Stripe, OAuth

PROFESSIONAL EXPERIENCE

Freelance Full Stack Software Engineer | **2022-Present**

- Deliver websites, custom applications and business platforms for clients in Latin America and Europe, from requirements and implementation to deployment and support.
- Build frontend and backend features, API integrations, database workflows and maintainable infrastructure.

Selected Project - Cosmos ERP | Spain | 2024-2025

- Developed a multi-tenant ERP with Laravel, Nuxt, Vue, TypeScript, MySQL, Redis and Docker; worked on invoicing, inventory, purchasing, warehouses and point-of-sale modules.
- Implemented type-safe API workflows and automated testing; supported deployments and infrastructure.

Selected Project - Ticador | SaaS platform | 2024-2025

- Built a workforce-management SaaS from the ground up, including tenant isolation, subdomains, authentication, onboarding and automated provisioning.
- Developed reporting, notifications, integrations and deployment workflows.

Selected Project - Press Archive Platform | **2024**

- Developed a custom press-archive platform for a white-label agency, managing an archive of more than 2 TB of files.
- Worked on indexed search, custom interfaces, Google sign-in and Mercado Pago integration using Nuxt and Django.
